

You made my wishes come true
You brought my imagination to life
You made my heart fall deeper in love
All I ever seemed to think of was you
The only name that rang in my mind was always yours
The love I yearned for was always yours
My love life seemed to revolve around you
All this time I was waiting for your text
And when it arrived
It rang the bells to my heart
And it chased my heart top to bottom
I never imagined the day you would say yes
I never thought it'd be real
I hope with you
All my dreams last
Because it's in you where my heart lies
And I want it there always
I love you
