

I love you
These are going to be the words in my heart
They'll never leave
For you are the one I chose
The one I've chosen
The one I'll always choose
Without you
All this is meaningless
You alone
Make my day
You make me smile for no reason
You make me look up
And I wonder
Where I'd be standing if I didn't have you
Sometimes it's just your thoughts
That keep me acting lively
I won't stop now though
I just wanna spend time with you
