I miss you lots

I miss you with every moment that passes by

I miss you every second I think of you

I miss you every minute you're not around

I miss you whenever I look to the stars

I miss you everyday

I miss you every week

I miss you every month

I miss you every year

I miss you forever

I miss you

I miss your smile

I miss your beauty

I miss your voice

I miss our moments together

I miss the romance

I miss the arguments

I miss all that we were
